

NEW

What's New in IBIS?

The Utah Department of Health Indicator Based Information System (IBIS) has new features based on user feedback. What are these new features?

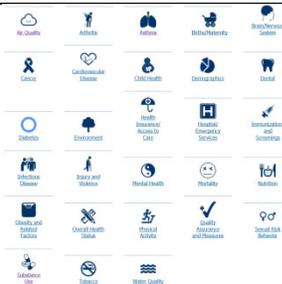

Improved user interface

The look and feel has been updated

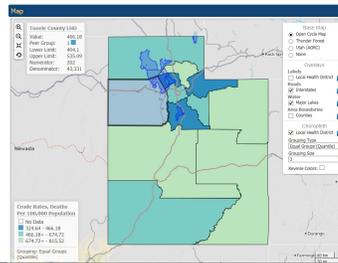

Health Topics

An easier way to find the information you need by choosing a general health topic area which navigates you to the relevant indicators and datasets.

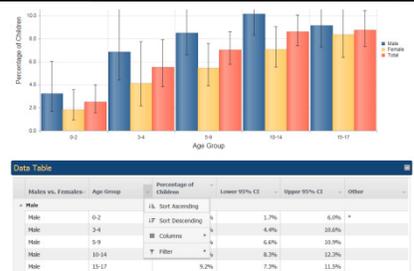

New Maps

There are maps for single dimension indicators and queries. Includes user defined layers.

New interactive charts and grids

Users can more easily customize charts and grids of data

Advanced User Section - How to find the old Indicator and Query Menus

You can still go directly to Indicators and Datasets through the Advanced Users menu

More Mobile Friendly

Resizes easier for use on mobile devices

Improved Site Specific Searches

Improved search capabilities for the IBIS site
