Acknowledgments

The 2003 Utah Health Status Survey was funded by the Utah Legislature. The Center for Health Data, Office of Public Health Assessment, under the direction of Lois M. Haggard, Ph.D., provided general oversight for the project. It is the mission of the Office of Public Health Assessment to facilitate, coordinate, and assure the appropriate collection, analysis, and interpretation of accurate health data for purposes of surveillance, policy development, and program planning and evaluation.

2003 Utah State Health Surveys Advisory Committee

Co-Chair: Kimberly Partain McNamara, MS, Utah Health Status Survey Coordinator, Office of Public Health Assessment, Utah Department of Health

Co-Chair: Kathie Marti, RN, MPH, Utah BRFSS Coordinator, Office of Public Health Assessment, Utah Department of Health

Voting Members:

Association for Utah Community Health: Mike Baker

Center for Health Data, UDOH: Barry E. Nangle, Director; Lois M. Haggard, Director of Office of Public Health Assessment

Child Health Insurance and Access Initiatives, UDOH: Chad Westover

Division of Community and Family Health Services, UDOH: Denise Beaudoin, Cancer Control Program and Cardiovascular Disease Prevention Program; Claudia Bohner, Tobacco Cessation and Control Program; Richard Bullough, Arthritis Program; John Eichwald, Children With Special Health Care Needs; Michael Friedrichs, Bureau of Health Promotion; Rebecca Giles, Asthma Program; Patricia Keller, Violence & Injury Prevention Program; Brenda Ralls, Diabetes Control Program; Karen Zinner, Bureau of Maternal & Child Health

Division of Health Care Financing, UDOH: Michael Deily, Director

Division of Health Systems Improvement, UDOH: Linda Lange, Director of Information

Division of Epidemiology & Laboratory Services, UDOH: Robert T. Rolfs, Director (State Epidemiologist); Teresa A. Garrett, Director of HIV/AIDS, TB Control, and Refugee Health

Intermountain Health Care: David Larsen, Director of Quality Improvement

Utah Children: Terry Haven, Kids Count Project Coordinator

Local Health Departments: Gary Edwards, Southwest Utah Public Health Department; Sally Kershisnik, Davis County Health Department; Judy Krengel, Davis County Health Department

University of Utah: Sandie Edwards, Department of Family and Preventive Medicine; Ken Smith, Department of Family and Consumer Studies

The report was developed and prepared by:

Kimberly Partain McNamara, MS, Office of Public Health Assessment

Kim Neerings, Office of Public Health Assessment

The following individuals reviewed earlier drafts of this report:

Lois M. Haggard, PhD, Director, Office of Public Health Assessment

Kathryn G. Marti, RN, MPH, Office of Public Health Assessment

Barry E. Nangle, PhD, Director, Center for Health Data

Michael Sanderson, MS, Office of Public Health Assessment

The Utah Department of Health would like to thank the citizens of Utah who participated in the 2003 Health Status Survey.

Chronic Medical Conditions (continued)

Table 12. Diabetes: Percentage of Persons Who Had Been Diagnosed With Diabetes by Selected Demographic Characteristics

Table 13. Chronic Obstructive Pulmonary Disease: Percentage of Persons Who Were Under Medical Care for Chronic Obstructive Pulmonary Disease (COPD) by Selected Demographic Characteristics

Lifestyles

Table 14. Exposure to Cigarette Smoke: Percentage of Children Who Had Been Exposed to Cigarette Smoke Inside the Home by Selected Demographic Characteristics

Table 15. Obesity: Percentage of Adults Who Were Obese by Selected Demographic Characteristics

Interpersonal Violence

Table 16. Interpersonal Violence: Percentage of Adults Who Were Victims of Interpersonal Violence in the Last 12 Months by Selected Demographic Characteristics

The information in this report is based on data collected by the 2003–2004 Utah Health Status Survey. It provides information on a variety of topics related to health status and health care access at statewide and health district levels. The Utah Health Status Survey is important because it provides information for Utah’s local health districts and children. Additional topics will be presented in a variety of reports and briefs, including titles listed below.

2003–2004 Health Insurance Coverage, Local Health District Findings

Brief: 2004 Statewide Insurance Estimates

Brief: 2003–2004 Children’s Health Status

Brief: 2003–2004 Racial and Ethnic Health Status

Brief: 2003–2004 Interpersonal Violence

The survey was funded by a legislative appropriation and was designed, analyzed, and reported by the Utah Department of Health, Center for Health Data. The survey sample was designed to be representative of Utahns, and is perhaps best described as a weighted probability sample consisting of 6,056 households disproportionately stratified by 12 local health districts which cover the entire state.

The Utah Department of Health Survey Center in Salt Lake City conducted the telephone interviews using computer-assisted random digit dialing techniques. In each household, one adult (aged 18 or older) was randomly selected to respond to survey questions about themselves, about the household as a unit, and with regard to each household member. The survey results were weighted to reflect the age, sex, geographic distribution, and Hispanic/Latino ethnicity of the population. Interviews were conducted over a 22-month period from March 2003 to December 2004. A detailed description of the methodology can be found in the Technical Notes section of this report. The entire survey questionnaire may be found online at http://health.utah.gov/opha/publications/2003hss/2003_4HSS.pdf

The information in this report can be used to facilitate policy and planning decisions. While it is intended primarily for public health program managers, administrators, and other health care professionals in the public and private health care sectors, the report may also be of interest to anyone wishing to inform themselves on the current health status of Utahns.

The survey was previously conducted in 1986, 1991, 1996, and 2001. It has been conducted continuously since March 2003.

The Health Status Survey Local Health District Overview Report provides information on 18 health measures from the 2003–2004 Utah Health Status Survey, plus a section comparing age-adjusted and crude rates of these same 18 health measures. The measures represent most of the topics covered in the 2003–2004 survey.

The report is intended to provide a brief overview of each of the measures. More detailed analysis of the data may be accomplished online using the custom query option at <http://ibis.health.utah.gov/>

For the purposes of the overview report, the measures have been simplified such that only one response level is reported. For instance, each respondent's general health status was originally reported on a five-point scale (excellent, very good, good, fair, or poor). The simplified measure reports only one level, those with fair or poor health.

For each measure, an attempt was made to collect and report information in a meaningful manner. For instance, for the variable "percentage of persons who received a routine medical check-up" the reported category indicates the percentage of persons who had received a routine medical check-up in the previous 12 months. This time interval was used because the current clinical guidelines recommend that persons should have a routine medical check-up at least once each year unless more frequent screening is medically indicated.

It is also common for a measure to be reported for only a sub-population of Utahns. For instance, mental health status data were collected from only the respondent and reported for adults 18 and older. It was believed that the respondent would be unable to provide valid information about the mental health and emotions experienced by other household members. The sub-population of inference is always indicated in the title of the table.

Each measure is depicted on one page that provides a reference table. Reference tables typically report an overall percentage for the entire relevant Utah population, and for that population by sex, age group, age group by sex, annual household income, education level (for those 18 and older), employment status (18 and older), Hispanic or Latino ethnicity, and marital status (18 and older). Additional comparisons for each measure may be found in that measure's detailed health status survey report, through the custom query option at <http://ibis.health.utah.gov/>, or by requesting it through the Center for Health Data at the address listed inside the front cover of this report.

The information in this report is presented by variables such as sex, age, and geography. By presenting the information this way, it is not meant to imply that differences in a measure are caused by a person's sex, age, area of residence, or any other variable in the survey. Data collected in a single-point-in-time survey will never provide sufficient evidence of a cause-and-effect relationship between two variables. For instance, a relationship between obesity and overall ill health has been observed. The data do not suggest whether being obese causes ill health, being ill causes one to be obese, or whether some third variable, such as a chronic condition, causes a person to be obese and to experience overall ill health.

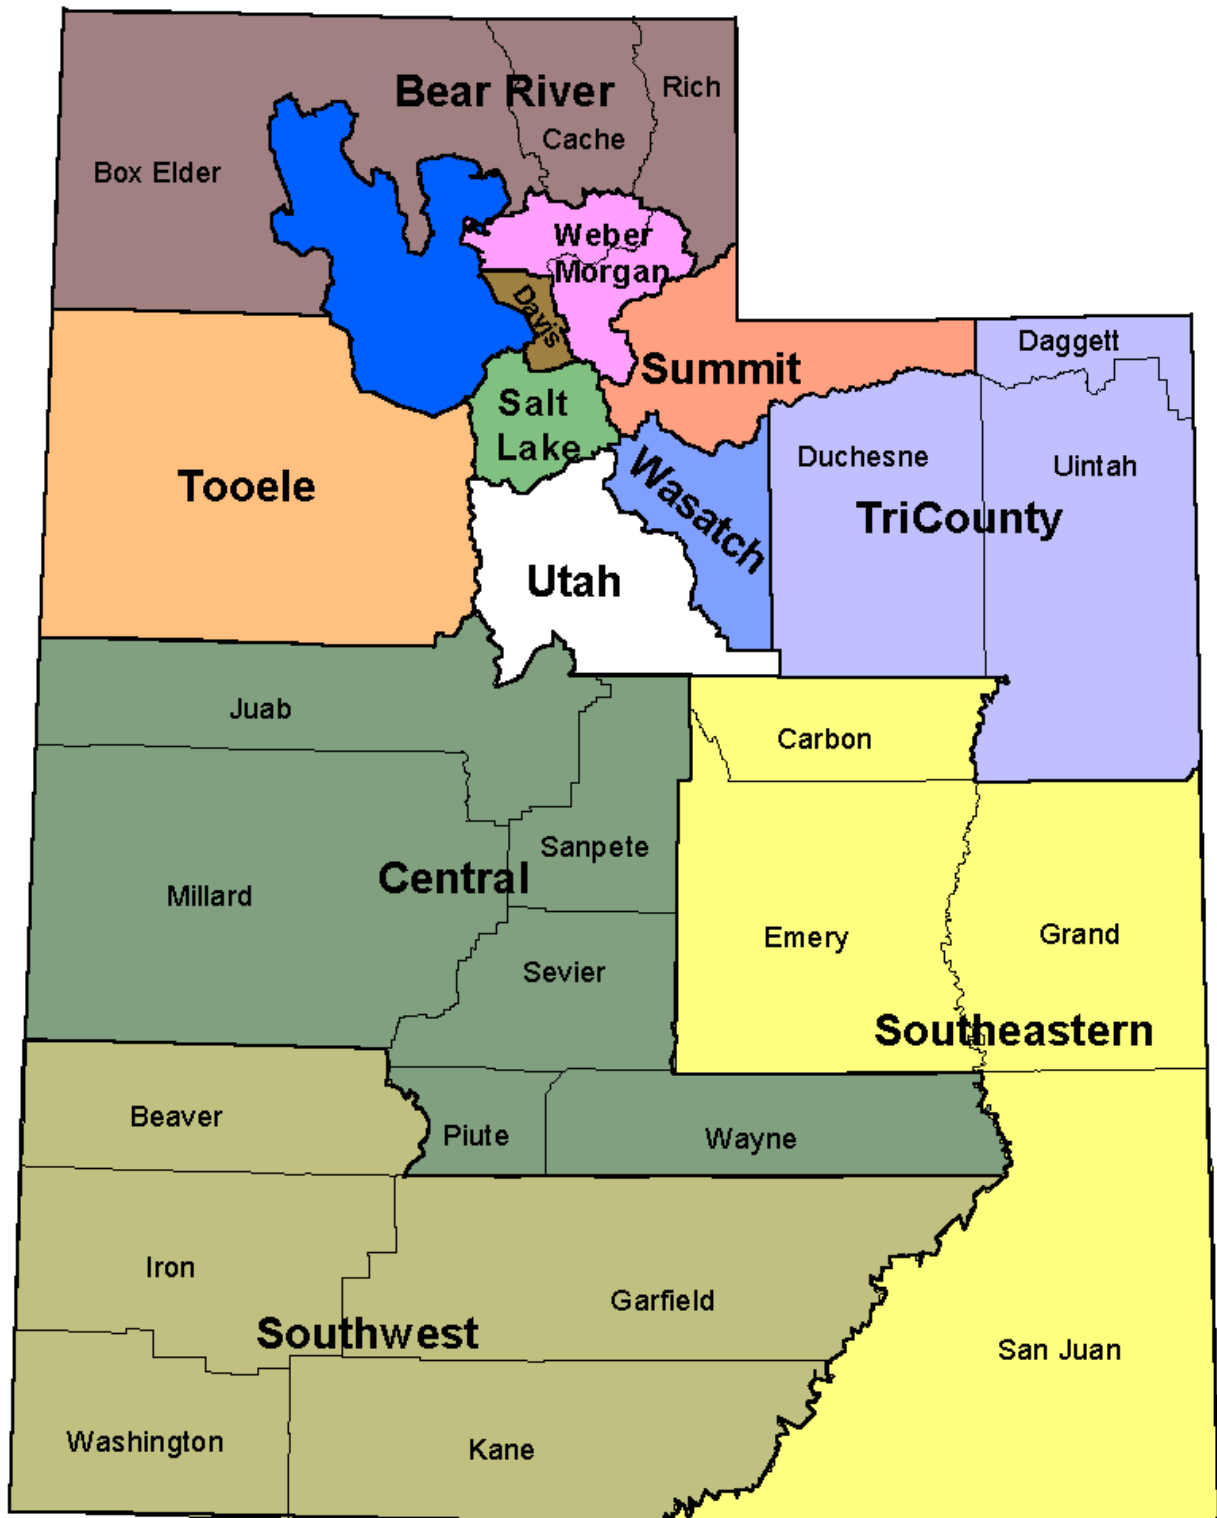

It should be noted that this report is an overview of the Health Status Survey results, and not a complete overview of the health status of Utahns. There is other relevant information that should be taken into account in order to gain perspective on Utahns' overall health status, such

Introduction

as leading causes of death, information on lifestyles and behavior, trends in hospitalization for various conditions, infectious disease rates, characteristics of mothers and newborns, injury deaths and hospitalizations, and many other factors. Some of this information can be found in other Center for Health Data publications and on Utah's Indicator-Based Information System for Public Health (IBIS-PH) at <http://ibis.health.utah.gov>. In addition, the Behavioral Risk Factor Surveillance System is a source for survey information on adult Utahns' health behaviors.

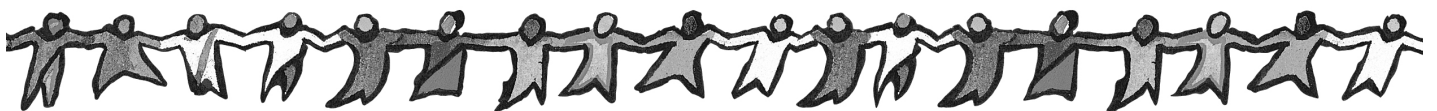

Utah's 12 Local Health Districts

In the tables that follow, data are presented for each of Utah's 12 local health districts. There are six single-county and six multi-county health districts, as shown above.

State of Utah Overview

**Table 1. General Health Status: Percentage of Persons
Who Were in Fair or Poor Health
by Selected Demographic Characteristics, Utah Residents, 2003-2004**

Demographic Subgroup	Utah Population Distribution		Survey Estimates of Persons Who Were in Fair/Poor Health		
	Percentage Distribution	Number of Persons ¹	Percentage of Persons ²	Number of Persons ^{3,4}	Percentage Distribution by Demographic Subgroup ⁴
Utah Population	100.0%	2,441,400	8.8% \pm 0.6%	215,800	100.0%

Married	69.5%	1,166,300	11.1% \pm 0.9%	129,400	66.2%
Never Married	18.4%	309,500	6.4% \pm 1.3%	19,700	10.1%
Divorced/Separated/Widowed	12.0%	201,900	23.0% \pm 2.7%	46,400	23.7%
Total, All Utahns Aged 18+	100.0%	1,677,800	11.7% \pm 0.8%	196,000	100.0%

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

5 These rates have not been age-adjusted. For age-adjusted rates see Appendix A.

Table 2. General Physical Functional Status: Percentage of Adults Who Accomplished Less as a Result of Their Physical Health by Selected Demographic Characteristics, Utah Residents Aged 18 and Over, 2003-2004

Demographic Subgroup	Utah Population Distribution		Survey Estimates of Adults Who Accomplished Less Due to Physical Health		
	Percentage Distribution	Number of Adults ¹	Percentage of Adults ²	Number of Adults ^{3,4}	Percentage Distribution by Demographic Subgroup ⁴

Total, All Utahns	100.0%	2,441,400	9.6% ± 0.9%	234,900	100.0%
Marital Status					
Married	69.5%	1,166,300	7.5% ± 0.9%	87,900	49.7%
Never Married	18.4%	309,500	18.7% ± 2.5%	57,800	32.7%
Divorced/Separated/Widowed	12.0%	201,900	15.5% ± 2.4%	31,300	17.7%
Total, All Utahns Aged 18+	100.0%	1,677,800	10.5% ± 0.9%	175,600	100.0%

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 R Total, All Utahns Aged 18+

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

5 These rates have not been age-adjusted. For age-adjusted rates see Appendix A.

*** Insufficient sample size for calculation of population estimates.

Table 4b. Health Insurance Carrier: Percentage of Persons With Each Type of Health Insurance
Utahns With Health Insurance, 2003-2004

Health Insurance Carrier	Survey Estimates of Persons With Health Insurance by Insurance Carrier	
	Percentage of Persons With Each Type of Plan ^{1,2}	Number of Persons With Each Type of Plan ³
Current or Former Employer or Union Purchased Directly From an Insurance Company	79.7% \pm 1.3%	1,759,500
Through Someone Not Living in Household	11.6% \pm 1.1%	255,800
Medicaid	3.7% \pm 0.6%	82,200
Medicare	8.4% \pm 0.8%	184,300
Other Government Plan ⁴	9.6% \pm 0.7%	212,900
Total, All Utahns With Health Insurance	4.4% \pm 0.6%	96,500
	100.0%	
Health Insurance Carrier	Percentage of Children With CHIP ^{1,2}	
	With CHIP ^{1,2}	Number of Children With CHIP ³
CHIP ⁵	3.7% \pm 0.9%	26,200
Total, All Children Aged 17 and Under With Health Insurance		

1 Plus or minus 95% confidence interval.

2 Because individuals could have more than one plan, figures in this column do not sum to 100%.

3 Rounded to the nearest 100 persons.

4 "Other government plan" includes Military, Tri-Care, or the V.A.

5 Children's Health Insurance Program.

Note: Estimates are not mutually exclusive, both by definition, and because a person may be covered by more than one type of plan.

Table 4c. Reasons for Lack of Health Insurance: Percentage of Persons Who Gave Each Reason as a Reason That They Lacked Health Insurance Utahns Who Lacked Health Insurance Coverage, 2003-2004

Reasons for Lack of Insurance	Survey Estimates of Persons Who Lacked Health Insurance by Reason	
	Percentage of Persons Who Gave Each Reason ^{1,2}	Number of Persons Who Gave Each Reason ³
Cannot Afford Insurance	65.6% ± 4.7%	154,200
Employer Does Not Offer Insurance	31.3% ± 5.0%	73,600
Lost Job	38.6% ± 5.0%	90,600
Don't Need/Don't Want Insurance	19.0% ± 3.8%	44,700
Employed Part Time	17.3% ± 3.8%	40,500
Lost Eligibility	13.6% ± 3.2%	31,800
Insurance Company Refused to Cover ⁴	9.3% ± 2.6%	21,800
Total, All Utahns Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

Table 5. Access to Health Care: Percentage of Persons Who Were Unable to Get Needed Medical, Dental, or Mental Health Care* in the Previous 12 Months by Selected Demographic Characteristics, Utah Residents, 2003-2004

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns may not sum to the total because of data weighting and missing values on the grouping variables.

5 These rates have not been age-adjusted. Age-adjusted rates are available upon request.

Note: Obesity was defined as a BMI of 30 or more. BMI is calculated by dividing weight in kilograms by the square of height in meters. For example, a male or female who is 5'8" is considered obese if he or she weighs 197.5 or more pounds.

3 Rounded to the nearest 100 persons.

4 "Other government plan" includes Military, Tri-Care, or the V.A.

5 Children's Health Insurance Program.

Note: Estimates are not mutually exclusive, both by definition, and because a person may be covered by more than one type of plan.

* The Bear River Health District includes all residents of Box Elder, Cache, and Rich Counties.

Bear River Health District*

Table 4c. Reasons for Lack of Health Insurance: Percentage of Persons Who Gave Each Reason as a Reason That They Lacked Health Insurance
Bear River Health District Residents Who Lacked Health Insurance Coverage, 2003-2004

Reasons for Lack of Insurance	Survey Estimates of Persons Who Lacked Health Insurance by Reason	
	Percentage of Persons Who Gave Each Reason ^{1,2}	Number of Persons Who Gave Each Reason ³
Cannot Afford Insurance	74.5% \pm 13.2%	9,500
Employer Does Not Offer Insurance	37.9% \pm 18.9%	4,800
Lost Job	49.7% \pm 18.3%	6,400
Don't Need/Don't Want Insurance	31.9% \pm 15.3%	4,100
Employed Part Time	41.8% \pm 17.9%	5,300
Lost Eligibility	12.9% \pm 12.5%	1,700
Insurance Company Refused to Cover ⁴	5.3% \pm 5.0%	700
Total, All Bear River HD Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

* The Bear River Health District includes all residents of Box Elder, Cache, and Rich Counties.

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

Note: These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Bear River Health District includes all residents of Box Elder, Cache, and Rich Counties.

† An individual was defined as unable to get care if they indicated that they delayed or were unable to obtain care because 1) their insurance would not cover the service, 2) the service was not available in their area, or 3) they could not afford to pay for the service.

*** Insufficient sample size for calculation of population estimates.

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns may not sum to the total because of data weighting and missing values on the grouping variables.

Notes: Obesity was defined as a BMI of 30 or more. BMI is calculated by dividing weight in kilograms by the square of height in meters. For example, a male or female who is 5'8" is considered obese if he or she weighs 197.5 or more pounds. These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Bear River Health District includes all residents of Box Elder, Cache, and Rich Counties.

*** Insufficient sample size for calculation of population estimates.

Total, All Central Utah HD Aged 18+	100.0%	48,000	16.5% \pm 3.6%	7,900	100.0%

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

Note: These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Central Utah Health District includes all residents of Juab, Millard, Piute, Sanpete, Sevier, and Wayne Counties.

*** Insufficient sample size for calculation of population estimates.

Central Utah Health District*

Table 4b. Health Insurance Carrier: Percentage of Persons With Each Type of Health Insurance

Central Utah Health District Residents With Health Insurance, 2003-2004

Health Insurance Carrier	Survey Estimates of Persons With Health Insurance by Insurance Carrier	
	Percentage of Persons With Each Type of Plan ^{1,2}	Number of Persons With Each Type of Plan ³
Current or Former Employer or Union	72.6% ± 5.1%	43,700
Purchased Directly From an Insurance Company	11.1% ± 3.5%	6,700
Through Someone Not Living in Household	2.0% ± 1.2%	1,200
Medicaid	14.2% ± 3.8%	8,500
Medicare	13.0% ± 3.0%	7,800
Other Government Plan ⁴	4.4% ± 2.2%	2,700
Total, All Central Utah HD With Health Insurance	100.0%	

Health Insurance Carrier	Percentage of Children With CHIP ^{1,2}	
	With CHIP ^{1,2}	Number of Children With CHIP ³
CHIP ⁵	11.5% ± 5.6%	2,300
Total, All Central Utah HD Aged 17 and Under With Health Insurance		

1 Plus or minus 95% confidence interval.

2 Because individuals could have more than one plan, figures in this column do not sum to 100%.

3 Rounded to the nearest 100 persons.

4 "Other government plan" includes Military, Tri-Care, or the V.A.

5 Children's Health Insurance Program.

Note: Estimates are not mutually exclusive, both by definition, and because a person may be covered by more than one type of plan.

* The Central Utah Health District includes all residents of Juab, Millard, Piute, Sanpete, Sevier, and Wayne Counties.

Central Utah Health District*

Table 4c. Reasons for Lack of Health Insurance: Percentage of Persons Who Gave Each Reason as a Reason That They Lacked Health Insurance
Central Utah Health District Residents Who Lacked Health Insurance Coverage, 2003-2004

Reasons for Lack of Insurance	Survey Estimates of Persons Who Lacked Health Insurance by Reason	
	Percentage of Persons Who Gave Each Reason ^{1,2}	Number of Persons Who Gave Each Reason ³
Cannot Afford Insurance	73.6% \pm 12.0%	7,200
Employer Does Not Offer Insurance	27.7% \pm 11.3%	2,700
Lost Job	38.7% \pm 13.5%	3,800
Don't Need/Don't Want Insurance	35.7% \pm 13.5%	3,500
Employed Part Time	12.3% \pm 9.1%	1,200
Lost Eligibility	15.3% \pm 9.3%	1,500
Insurance Company Refused to Cover ⁴	*** \pm ***	***
Total, All Central Utah HD Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

* The Central Utah Health District includes all residents of Juab, Millard, Piute, Sanpete, Sevier, and Wayne Counties.

*** Insufficient sample size for calculation of population estimates.

Central Utah Health District*

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

Note: These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Central Utah Health District includes all residents of Juab, Millard, Piute, Sanpete, Sevier, and Wayne Counties.

[†] An individual was defined as unable to get care if they indicated that they delayed or were unable to obtain care because 1) their insurance would not cover the service, 2) the service was not available in their area, or 3) they could not afford to pay for the service.

*** Insufficient sample size for calculation of population estimates.

Table 15 (continued). Obesity: Percentage of Adults Who Were Obese
by Selected Demographic Characteristics, Central Utah Health District Residents Aged 18 and Over, 2004

Demographic Subgroup	Central Utah Health District Distribution		Survey Estimates of Adults Who Were Obese		
	Percentage Distribution	Number of Adults ¹	Percentage of Adults ²	Number of Adults ^{3,4}	Percentage Distribution by Demographic Subgroup ⁴
Hispanic or Latino Ethnicity					
Hispanic or Latino	5.6%	2,700	34.8% \pm 21.4%	900	9.5%
Not Hispanic or Latino	94.4%	45,300	19.0% \pm 3.0%	8,600	90.5%
Total, All Central Utah HD Aged 18+	100.0%	48,000	19.7% \pm 3.1%	9,500	100.0%
Marital Status					
Married	75.8%	36,400	21.8% \pm 3.7%	7,900	84.0%
Never Married	14.2%	6,800	11.8% \pm 7.6%	800	8.5%
Divorced/Separated/Widowed	9.9%	4,800	15.0% \pm 7.1%	700	7.4%
Total, All Central Utah HD Aged 18+	100.0%	48,000	19.7% \pm 3.1%	9,500	100.0%

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns may not sum to the total because of data weighting and missing values on the grouping variables.

Notes: Obesity was defined as a BMI of 30 or more. BMI is calculated by dividing weight in kilograms by the square of height in meters. For example, a male or female who is 5'8" is considered obese if he or she weighs 197.5 or more pounds. These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Central Utah Health District includes all residents of Juab, Millard, Piute, Sanpete, Sevier, and Wayne Counties.

*** Insufficient sample size for calculation of population estimates.

Table 4b. Health Insurance Carrier: Percentage of Persons With Each Type of Health Insurance

Davis County Health District Residents With Health Insurance, 2003-2004

Health Insurance Carrier	Survey Estimates of Persons With Health Insurance by Insurance Carrier	
	Percentage of Persons With Each Type of Plan ^{1,2}	Number of Persons With Each Type of Plan ³
Current or Former Employer or Union	83.3% \pm 4.0%	209,500
Purchased Directly From an Insurance Company	9.8% \pm 3.3%	24,500
Through Someone Not Living in Household	2.9% \pm 1.6%	7,300
Medicaid	7.4% \pm 2.6%	18,600
Medicare	8.9% \pm 2.2%	22,300
Other Government Plan ⁴	8.5% \pm 2.7%	21,400
Total, All Davis County HD With Health Insurance	100.0%	

Health Insurance Carrier	Percentage of Children With CHIP ^{1,2}	Number of Children With CHIP ³
	*** \pm ***	***
CHIP ⁵		
Total, All Davis County HD Aged 17 and Under With Health Insurance		

1 Plus or minus 95% confidence interval.

2 Because individuals could have more than one plan, figures in this column do not sum to 100%.

3 Rounded to the nearest 100 persons.

4 "Other government plan" includes Military, Tri-Care, or the V.A.

5 Children's Health Insurance Program.

Note: Estimates are not mutually exclusive, both by definition, and because a person may be covered by more than one type of plan.

* The Davis County Health District includes all residents of Davis County.

*** Insufficient sample size for calculation of population estimates.

Davis County Health District*

Table 4c. Reasons for Lack of Health Insurance: Percentage of Persons Who Gave Each Reason as a Reason That They Lacked Health Insurance
Davis County Health District Residents Who Lacked Health Insurance Coverage, 2003-2004

Reasons for Lack of Insurance	Survey Estimates of Persons Who Lacked Health Insurance by Reason	
	Percentage of Persons Who Gave Each Reason ^{1,2}	Number of Persons Who Gave Each Reason ³
Cannot Afford Insurance	61.1% ± 22.7%	8,600
Employer Does Not Offer Insurance	27.7% ± 21.8%	3,900
Lost Job	39.2% ± 25.9%	5,500
Don't Need/Don't Want Insurance	16.5% ± 13.9%	2,300
Employed Part Time	34.9% ± 25.0%	4,900
Lost Eligibility	15.3% ± 14.7%	2,200
Insurance Company Refused to Cover ⁴	*** ± ***	***
Total, All Davis County HD Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

* The Davis County Health District includes all residents of Davis County.

*** Insufficient sample size for calculation of population estimates.

* The Davis County Health District includes all residents of Davis County.

[†] An individual was defined as unable to get care if they indicated that they delayed or were unable to obtain care because 1) their insurance would not cover the service, 2) the service was not available in their area, or 3) they could not afford to pay for the service.

*** Insufficient sample size for calculation of population estimates.

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

Note: These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Salt Lake Valley Health District includes all residents of Salt Lake County.

*** Insufficient sample size for calculation of population estimates.

Salt Lake Valley Health District*

Table 4b. Health Insurance Carrier: Percentage of Persons With Each Type of Health Insurance

Salt Lake Valley Health District Residents With Health Insurance, 2003-2004

Health Insurance Carrier	Survey Estimates of Persons With Health Insurance by Insurance Carrier	
	Percentage of Persons With Each Type of Plan ^{1,2}	Number of Persons With Each Type of Plan ³
Current or Former Employer or Union	81.0% ± 2.3%	697,400
Purchased Directly From an Insurance Company	11.5% ± 1.9%	99,000
Through Someone Not Living in Household	2.8% ± 0.8%	23,800
Medicaid	8.1% ± 1.5%	69,700
Medicare	8.9% ± 1.2%	76,800
Other Government Plan ⁴	3.4% ± 1.0%	29,200
Total, All Salt Lake Valley HD With Health Insurance	100.0%	

Health Insurance Carrier	Percentage of Children With CHIP ^{1,2}	
	With CHIP ^{1,2}	With CHIP ³
CHIP ⁵	3.4% ± 1.7%	9,000
Total, All Salt Lake Valley HD Aged 17 and Under With Health Insurance		

1 Plus or minus 95% confidence interval.

2 Because individuals could have more than one plan, figures in this column do not sum to 100%.

3 Rounded to the nearest 100 persons.

4 "Other government plan" includes Military, Tri-Care, or the V.A.

5 Children's Health Insurance Program.

Note: Estimates are not mutually exclusive, both by definition, and because a person may be covered by more than one type of plan.

* The Salt Lake Valley Health District includes all residents of Salt Lake County.

Salt Lake Valley Health District*

Table 4c. Reasons for Lack of Health Insurance: Percentage of Persons Who Gave Each Reason as a Reason That They Lacked Health Insurance
Salt Lake Valley Health District Residents Who Lacked Health Insurance Coverage, 2003-2004

Reasons for Lack of Insurance	Survey Estimates of Persons Who Lacked Health Insurance by Reason	
	Percentage of Persons Who Gave Each Reason ^{1,2}	Number of Persons Who Gave Each Reason ³
Cannot Afford Insurance	61.6% ± 8.8%	53,800
Employer Does Not Offer Insurance	33.1% ± 9.2%	28,900
Lost Job	44.9% ± 9.1%	39,200
Don't Need/Don't Want Insurance	21.5% ± 7.3%	18,700
Employed Part Time	15.1% ± 5.8%	13,200
Lost Eligibility	8.6% ± 4.4%	7,500
Insurance Company Refused to Cover ⁴	10.3% ± 4.7%	9,000
Total, All Salt Lake Valley HD Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

* The Salt Lake Valley Health District includes all residents of Salt Lake County.

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns may not sum to the total because of data weighting and missing values on the grouping variables.

Note: Interpersonal violence was defined as any intentional hit, slap, push, or kick to a person, or any other intentional hurt inflicted to a person, during the last 12 months. These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Salt Lake Valley Health District includes all residents of Salt Lake County.

*** Insufficient sample size for calculation of population estimates.

* The Southeastern Utah Health District includes all residents of Carbon, Emery, Grand, and San Juan Counties.

*** Insufficient sample size for calculation of population estimates.

Southeastern Utah Health District*

Table 4b. Health Insurance Carrier: Percentage of Persons With Each Type of Health Insurance

Southeastern Utah Health District Residents With Health Insurance, 2003-2004

Health Insurance Carrier	Survey Estimates of Persons With Health Insurance by Insurance Carrier	
	Percentage of Persons With Each Type of Plan ^{1,2}	Number of Persons With Each Type of Plan ³
Current or Former Employer or Union	69.0% ± 5.3%	31,100
Purchased Directly From an Insurance Company	11.4% ± 3.7%	5,100
Through Someone Not Living in Household	4.7% ± 2.2%	2,100
Medicaid	14.4% ± 4.0%	6,500
Medicare	14.8% ± 2.9%	6,700
Other Government Plan ⁴	5.5% ± 2.7%	2,500
Total, All Southeastern Utah HD With Health Insurance	100.0%	
Health Insurance Carrier	Percentage of Children With CHIP ^{1,2}	
	With CHIP ^{1,2}	With CHIP ³
CHIP ⁵	11.1% ± 6.1%	1,500
Total, All Southeastern Utah HD Aged 17 and Under With Health Insurance		

1 Plus or minus 95% confidence interval.

2 Because individuals could have more than one plan, figures in this column do not sum to 100%.

3 Rounded to the nearest 100 persons.

4 "Other government plan" includes Military, Tri-Care, or the V.A.

5 Children's Health Insurance Program.

Note: Estimates are not mutually exclusive, both by definition, and because a person may be covered by more than one type of plan.

* The Southeastern Utah Health District includes all residents of Carbon, Emery, Grand, and San Juan Counties.

Southeastern Utah Health District*

Table 4c. Reasons for Lack of Health Insurance: Percentage of Persons Who Gave Each Reason as a Reason That They Lacked Health Insurance
Southeastern Utah Health District Residents Who Lacked Health Insurance Coverage, 2003-2004

Reasons for Lack of Insurance	Survey Estimates of Persons Who Lacked Health Insurance by Reason	
	Percentage of Persons Who Gave Each Reason ^{1,2}	Number of Persons Who Gave Each Reason ³
Cannot Afford Insurance	71.9% ± 12.5%	5,600
Employer Does Not Offer Insurance	34.7% ± 14.0%	2,700
Lost Job	26.4% ± 11.6%	2,000
Don't Need/Don't Want Insurance	17.9% ± 9.2%	1,400
Employed Part Time	11.5% ± 7.4%	900
Lost Eligibility	18.0% ± 10.5%	1,400
Insurance Company Refused to Cover ⁴	*** ± ***	***
Total, All Southeastern Utah HD Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

* The Southeastern Utah Health District includes all residents of Carbon, Emery, Grand, and San Juan Counties.

*** Insufficient sample size for calculation of population estimates.

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns may not sum to the total because of data weighting and missing values on the grouping variables.

Notes: Interpersonal violence was defined as any intentional hit, slap, push, or kick to a person, or any other intentional hurt inflicted to a person, during the last 12 months. These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Southeastern Utah Health District includes all residents of Carbon, Emery, Grand, and San Juan Counties.

*** Insufficient sample size for calculation of population estimates.

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

Note: These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Southwest Utah Health District includes all residents of Beaver, Garfield, Iron, Kane, and Washington Counties.

*** Insufficient sample size for calculation of population estimates.

Southwest Utah Health District*

Table 4b. Health Insurance Carrier: Percentage of Persons With Each Type of Health Insurance

Southwest Utah Health District Residents With Health Insurance, 2003-2004

Health Insurance Carrier	Survey Estimates of Persons With Health Insurance by Insurance Carrier	
	Percentage of Persons With Each Type of Plan ^{1,2}	Number of Persons With Each Type of Plan ³
Current or Former Employer or Union	72.7% ± 5.1%	103,900
Purchased Directly From an Insurance Company	14.4% ± 3.9%	20,600
Through Someone Not Living in Household	5.2% ± 2.6%	7,500
Medicaid	10.5% ± 2.9%	15,100
Medicare	19.0% ± 3.6%	27,100
Other Government Plan ⁴	5.5% ± 2.6%	7,800
Total, All Southwest Utah HD With Health Insurance	100.0%	

Health Insurance Carrier	Percentage of Children With CHIP ^{1,2}	
	With CHIP ^{1,2}	With CHIP ³
CHIP ⁵	6.7% ± 5.0%	2,900
Total, All Southwest Utah HD Aged 17 and Under With Health Insurance		

1 Plus or minus 95% confidence interval.

2 Because individuals could have more than one plan, figures in this column do not sum to 100%.

3 Rounded to the nearest 100 persons.

4 "Other government plan" includes Military, Tri-Care, or the V.A.

5 Children's Health Insurance Program.

Note: Estimates are not mutually exclusive, both by definition, and because a person may be covered by more than one type of plan.

* The Southwest Utah Health District includes all residents of Beaver, Garfield, Iron, Kane, and Washington Counties

Southwest Utah Health District*

Table 4c. Reasons for Lack of Health Insurance: Percentage of Persons Who Gave Each Reason as a Reason That They Lacked Health Insurance
Southwest Utah Health District Residents Who Lacked Health Insurance Coverage, 2003-2004

Reasons for Lack of Insurance	Survey Estimates of Persons Who Lacked Health Insurance by Reason	
	Percentage of Persons Who Gave Each Reason ^{1,2}	Number of Persons Who Gave Each Reason ³
Cannot Afford Insurance	76.2% \pm 11.3%	19,700
Employer Does Not Offer Insurance	38.0% \pm 14.9%	9,800
Lost Job	16.1% \pm 9.9%	4,200
Don't Need/Don't Want Insurance	19.3% \pm 9.2%	5,000
Employed Part Time	9.8% \pm 6.8%	2,500
Lost Eligibility	14.4% \pm 9.3%	3,700
Insurance Company Refused to Cover ⁴	15.9% \pm 10.5%	4,100
Total, All Southwest Utah HD Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

* The Southwest Utah Health District includes all residents of Beaver, Garfield, Iron, Kane, and Washington Counties.

Total, All Summit County HD					
Aged 18+	100.0%	25,000	9.1% \pm 3.2%	2,300	100.0%

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

Note: These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Summit County Health District includes all residents of Summit County.

*** Insufficient sample size for calculation of population estimates.

Summit County Health District*
Table 4b. Health Insurance Carrier: Percentage of Persons With Each Type of Health Insurance
Summit County Health District Residents With Health Insurance, 2003-2004

Health Insurance Carrier	Survey Estimates of Persons With Health Insurance by Insurance Carrier	
	Percentage of Persons With Each Type of Plan ^{1,2}	Number of Persons With Each Type of Plan ³
Current or Former Employer or Union	78.5% ± 4.4%	24,800
Purchased Directly From an Insurance Company	19.1% ± 4.4%	6,000
Through Someone Not Living in Household	3.6% ± 2.1%	1,100
Medicaid	4.1% ± 1.5%	1,300
Medicare	6.7% ± 2.1%	2,100
Other Government Plan ⁴	2.5% ± 1.7%	800
Total, All Summit County HD With Health Insurance	100.0%	
Health Insurance Carrier	Percentage of Children With CHIP ^{1,2}	
	With CHIP ^{1,2}	With CHIP ³
CHIP ⁵	*** ± ***	***
Total, All Summit County HD Aged 17 and Under With Health Insurance		

1 Plus or minus 95% confidence interval.

2 Because individuals could have more than one plan, figures in this column do not sum to 100%.

3 Rounded to the nearest 100 persons.

4 "Other government plan" includes Military, Tri-Care, or the V.A.

5 Children's Health Insurance Program.

Note: Estimates are not mutually exclusive, both by definition, and because a person may be covered by more than one type of plan.

* The Summit County Health District includes all residents of Summit County.

*** Insufficient sample size for calculation of population estimates.

Summit County Health District*

Table 4c. Reasons for Lack of Health Insurance: Percentage of Persons Who Gave Each Reason as a Reason That They Lacked Health Insurance
Summit County Health District Residents Who Lacked Health Insurance Coverage, 2003-20

Reasons for Lack of Insurance	Survey Estimates of Persons Who Lacked Health Insurance by Reason	
	Percentage of Persons Who Gave Each Reason ^{1,2}	Number of Persons Who Gave Each Reason ³
Cannot Afford Insurance	59.2% \pm 20.5%	1,800
Employer Does Not Offer Insurance	21.7% \pm 16.6%	600
Lost Job	20.3% \pm 15.3%	600
Don't Need/Don't Want Insurance	23.0% \pm 17.2%	700
Employed Part Time	16.1% \pm 14.2%	500
Lost Eligibility	*** \pm ***	***
Insurance Company Refused to Cover ⁴	9.8% \pm 9.7%	300
Total, All Summit County HD Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

* The Summit County Health District includes all residents of Summit County.

*** Insufficient sample size for calculation of population estimates.

Table 4b. Health Insurance Carrier: Percentage of Persons With Each Type of Health Insurance

Tooele County Health District Residents With Health Insurance, 2003-2004

Health Insurance Carrier	Survey Estimates of Persons With Health Insurance by Insurance Carrier	
	Percentage of Persons With Each Type of Plan ^{1,2}	Number of Persons With Each Type of Plan ³
Current or Former Employer or Union	88.4% ± 3.0%	43,800
Purchased Directly From an Insurance Company	4.5% ± 2.0%	2,200
Through Someone Not Living in Household	3.3% ± 1.6%	1,600
Medicaid	6.7% ± 2.3%	3,300
Medicare	8.8% ± 1.9%	4,400
Other Government Plan ⁴	6.4% ± 2.2%	3,200
Total, All Tooele County HD With Health Insurance	100.0%	
Health Insurance Carrier	Percentage of Children With CHIP ^{1,2}	
	With CHIP ^{1,2}	With CHIP ³
CHIP ⁵	0.8% ± 0.7%	100
Total, All Tooele County HD Aged 17 and Under With Health Insurance		

1 Plus or minus 95% confidence interval.

2 Because individuals could have more than one plan, figures in this column do not sum to 100%.

3 Rounded to the nearest 100 persons.

4 "Other government plan" includes Military, Tri-Care, or the V.A.

5 Children's Health Insurance Program.

Note: Estimates are not mutually exclusive, both by definition, and because a person may be covered by more than one type of plan.

* The Tooele County Health District includes all residents of Tooele County.

Tooele County Health District*

Table 4c. Reasons for Lack of Health Insurance: Percentage of Persons Who Gave Each Reason as a Reason That They Lacked Health Insurance
Tooele County Health District Residents Who Lacked Health Insurance Coverage, 2003-2004

Reasons for Lack of Insurance	Survey Estimates of Persons Who Lacked Health Insurance by Reason	
	Percentage of Persons Who Gave Each Reason ^{1,2}	Number of Persons Who Gave Each Reason ³
Cannot Afford Insurance	55.1% \pm 18.0%	1,600
Employer Does Not Offer Insurance	32.8% \pm 18.7%	900
Lost Job	49.5% \pm 18.8%	1,400
Don't Need/Don't Want Insurance	7.8% \pm 7.2%	200
Employed Part Time	*** \pm ***	***
Lost Eligibility	16.6% \pm 13.4%	500
Insurance Company Refused to Cover ⁴	9.7% \pm 9.7%	300
Total, All Tooele County HD Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

* The Tooele County Health District includes all residents of Tooele County.

*** Insufficient sample size for calculation of population estimates.

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

Note: These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Tooele County Health District includes all residents of Tooele County.

[†] An individual was defined as unable to get care if they indicated that they delayed or were unable to obtain care because 1) their insurance would not cover the service, 2) the service was not available in their area, or 3) they could not afford to pay for the service.

*** Insufficient sample size for calculation of population estimates.

Total, All Tooele County HD Aged 18+	100.0%	32,800	24.0% \pm 3.2%	7,900	100.0%

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns may not sum to the total because of data weighting and missing values on the grouping variables.

Note: Obesity was defined as a BMI of 30 or more. BMI is calculated by dividing weight in kilograms by the square of height in meters. For example, a male or female who is 5'8" is considered obese if he or she weighs 197.5 or more pounds. These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Tooele County Health District includes all residents of Tooele County.

Total, All TriCounty HD Aged 18+	100.0%	28,300	13.6% \pm 3.0%	3,900	100.0%

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

Note: These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The TriCounty Health District includes all residents of Daggett, Duchesne, and Uintah Counties.

*** Insufficient sample size for calculation of population estimates.

TriCounty Health District*

Table 4b. Health Insurance Carrier: Percentage of Persons With Each Type of Health Insurance

TriCounty Health District Residents With Health Insurance, 2003-2004

Health Insurance Carrier	Survey Estimates of Persons With Health Insurance by Insurance Carrier	
	Percentage of Persons With Each Type of Plan ^{1,2}	Number of Persons With Each Type of Plan ³
Current or Former Employer or Union	67.5% ± 5.2%	24,900
Purchased Directly From an Insurance Company	15.5% ± 4.0%	5,700
Through Someone Not Living in Household	3.9% ± 2.7%	1,400
Medicaid	13.8% ± 3.7%	5,100
Medicare	12.7% ± 2.5%	4,700
Other Government Plan ⁴	5.7% ± 2.2%	2,100
Total, All TriCounty HD With Health Insurance	100.0%	

Health Insurance Carrier	Percentage of Children With CHIP ^{1,2}	
	With CHIP ^{1,2}	With CHIP ³
CHIP ⁵	3.9% ± 3.5%	500
Total, All TriCounty HD Aged 17 and Under With Health Insurance		

1 Plus or minus 95% confidence interval.

2 Because individuals could have more than one plan, figures in this column do not sum to 100%.

3 Rounded to the nearest 100 persons.

4 "Other government plan" includes Military, Tri-Care, or the V.A.

5 Children's Health Insurance Program.

Note: Estimates are not mutually exclusive, both by definition, and because a person may be covered by more than one type of plan.

* The TriCounty Health District includes all residents of Daggett, Duchesne, and Uintah Counties.

TriCounty Health District*

Table 4c. Reasons for Lack of Health Insurance: Percentage of Persons Who Gave Each Reason as a Reason That They Lacked Health Insurance
TriCounty Health District Residents Who Lacked Health Insurance Coverage, 2003-2004

Reasons for Lack of Insurance	Survey Estimates of Persons Who Lacked Health Insurance by Reason	
	Percentage of Persons Who Gave Each Reason ^{1,2}	Number of Persons Who Gave Each Reason ³
Cannot Afford Insurance	63.2% \pm 13.6%	3,200
Employer Does Not Offer Insurance	28.0% \pm 11.2%	1,400
Lost Job	46.3% \pm 13.4%	2,300
Don't Need/Don't Want Insurance	22.5% \pm 11.7%	1,100
Employed Part Time	13.4% \pm 7.2%	700
Lost Eligibility	12.9% \pm 8.1%	700
Insurance Company Refused to Cover ⁴	5.6% \pm 4.8%	300
Total, All TriCounty HD Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

* The TriCounty Health District includes all residents of Daggett, Duchesne, and Uintah Counties.

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

Note: These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The TriCounty Health District includes all residents of Daggett, Duchesne, and Uintah Counties.

[†] An individual was defined as unable to get care if they indicated that they delayed or were unable to obtain care because 1) their insurance would not cover the service, 2) the service was not available in their area, or 3) they could not afford to pay for the service.

*** Insufficient sample size for calculation of population estimates.

Total, All TriCounty HD Aged 18+	100.0%	28,300	0.6% ± 0.5%	200	100.0%

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns may not sum to the total because of data weighting and missing values on the grouping variables.

Notes: Interpersonal violence was defined as any intentional hit, slap, push, or kick to a person, or any other intentional hurt inflicted to a person, during the last 12 months. These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The TriCounty Health District includes all residents of Daggett, Duchesne, and Uintah Counties.

*** Insufficient sample size for calculation of population estimates.

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

Note: These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Utah County Health District includes all residents of Utah County.

*** Insufficient sample size for calculation of population estimates.

Utah County Health District*

Table 4b. Health Insurance Carrier: Percentage of Persons With Each Type of Health Insurance

Utah County Health District Residents With Health Insurance, 2003-2004

Health Insurance Carrier	Survey Estimates of Persons With Health Insurance by Insurance Carrier	
	Percentage of Persons With Each Type of Plan ^{1,2}	Number of Persons With Each Type of Plan ³
Current or Former Employer or Union	78.2% \pm 3.4%	299,100
Purchased Directly From an Insurance Company	12.1% \pm 2.5%	46,400
Through Someone Not Living in Household	3.7% \pm 1.4%	14,300
Medicaid	8.0% \pm 2.1%	30,600
Medicare	6.7% \pm 1.3%	25,500
Other Government Plan ⁴	2.8% \pm 1.3%	10,800
Total, All Utah County HD With Health Insurance	100.0%	

Health Insurance Carrier	Percentage of Children With CHIP ^{1,2}	
	With CHIP ^{1,2}	With CHIP ³
CHIP ⁵	3.3% \pm 1.7%	4,400
Total, All Utah County HD Aged 17 and Under With Health Insurance		

1 Plus or minus 95% confidence interval.

2 Because individuals could have more than one plan, figures in this column do not sum to 100%.

3 Rounded to the nearest 100 persons.

4 "Other government plan" includes Military, Tri-Care, or the V.A.

5 Children's Health Insurance Program.

Note: Estimates are not mutually exclusive, both by definition, and because a person may be covered by more than one type of plan.

* The Utah County Health District includes all residents of Utah County.

Utah County Health District*

Table 4c. Reasons for Lack of Health Insurance: Percentage of Persons Who Gave Each Reason as a Reason That They Lacked Health Insurance
Utah County Health District Residents Who Lacked Health Insurance Coverage, 2003-2004

Reasons for Lack of Insurance	Survey Estimates of Utahns Who Lacked Health Insurance by Reason	
	Percentage of Persons Who Gave Each Reason ^{1,2}	Number of Persons Who Gave Each Reason ³
Cannot Afford Insurance	69.3% \pm 11.4%	33,200
Employer Does Not Offer Insurance	25.0% \pm 10.8%	12,000
Lost Job	41.2% \pm 12.7%	19,800
Don't Need/Don't Want Insurance	13.9% \pm 9.7%	6,700
Employed Part Time	9.9% \pm 6.0%	4,800
Lost Eligibility	18.1% \pm 9.6%	8,700
Insurance Company Refused to Cover ⁴	6.1% \pm 5.0%	2,900
Total, All Utah County HD Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

* The Utah County Health District includes all residents of Utah County.

Table 4b. Health Insurance Carrier: Percentage of Persons With Each Type of Health Insurance

Wasatch County Health District Residents With Health Insurance, 2003-2004

Health Insurance Carrier	Survey Estimates of Persons With Health Insurance by Insurance Carrier	
	Percentage of Persons With Each Type of Plan ^{1,2}	Number of Persons With Each Type of Plan ³
Current or Former Employer or Union	74.6% ± 5.2%	12,200
Purchased Directly From an Insurance Company	17.7% ± 4.6%	2,900
Through Someone Not Living in Household	3.6% ± 2.0%	600
Medicaid	7.2% ± 2.6%	1,200
Medicare	11.5% ± 2.7%	1,900
Other Government Plan ⁴	1.3% ± 0.9%	200
Total, All Wasatch County HD With Health Insurance	100.0%	

Health Insurance Carrier	Percentage of Children With CHIP ^{1,2}	
	Percentage of Children With CHIP ^{1,2}	Number of Children With CHIP ³
CHIP ⁵	6.1% ± 4.4%	300
Total, All Wasatch County HD Aged 17 and Under With Health Insurance		

1 Plus or minus 95% confidence interval.

2 Because individuals could have more than one plan, figures in this column do not sum to 100%.

3 Rounded to the nearest 100 persons.

4 "Other government plan" includes Military, Tri-Care, or the V.A.

5 Children's Health Insurance Program.

Note: Estimates are not mutually exclusive, both by definition, and because a person may be covered by more than one type of plan.

* The Wasatch County Health District includes all residents of Wasatch County.

Wasatch County Health District*

Table 4c. Reasons for Lack of Health Insurance: Percentage of Persons Who Gave Each Reason as a Reason That They Lacked Health Insurance
Wasatch County Health District Residents Who Lacked Health Insurance Coverage, 2003-2004

Reasons for Lack of Insurance	Survey Estimates of Persons Who Lacked Health Insurance by Reason	
	Percentage of Persons Who Gave Each Reason ^{1,2}	Number of Persons Who Gave Each Reason ³
Cannot Afford Insurance	84.4% ± 9.7%	2,100
Employer Does Not Offer Insurance	39.3% ± 16.8%	1,000
Lost Job	34.2% ± 15.4%	900
Don't Need/Don't Want Insurance	14.1% ± 10.5%	400
Employed Part Time	13.5% ± 8.1%	300
Lost Eligibility	12.2% ± 10.3%	300
Insurance Company Refused to Cover ⁴	*** ± ***	***
Total, All Wasatch County HD Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

* The Wasatch County Health District includes all residents of Wasatch County.

*** Insufficient sample size for calculation of population estimates.

Employed Part Time	33.6% \pm 19.4%	5,500
Lost Eligibility	21.9% \pm 15.7%	3,600
Insurance Company Refused to Cover ⁴	12.3% \pm 10.2%	2,000
Total, All Weber-Morgan HD Who Lacked Insurance	100.0%	

1 Plus or minus 95% confidence interval.

2 Because individuals could choose more than one reason, figures sum to greater than 100%.

3 Rounded to the nearest 100 households.

4 Reasons an insurance company would refuse to cover an individual included 1) a pre-existing condition, 2) the individual exceeded lifetime benefits, or 3) some other reason.

Note: Estimates are not mutually exclusive, both by definition, and because a person may have listed more than one reason for being uninsured.

* The Weber-Morgan Health District includes all residents of Morgan and Weber Counties.

*** Insufficient sample size for calculation of population estimates.

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns do not sum to the total because of missing values on the grouping variables.

Note: These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Weber-Morgan Health District includes all residents of Morgan and Weber Counties.

[†] An individual was defined as unable to get care if they indicated that they delayed or were unable to obtain care because 1) their insurance would not cover the service, 2) the service was not available in their area, or 3) they could not afford to pay for the service.

*** Insufficient sample size for calculation of population estimates.

1 Population estimates of sex, age groups, and LHD based on the average of 2003 and 2004 Baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2003 and 2004 UHSS and rounded to the nearest 100 persons.

2 Plus or minus 95% confidence interval.

3 Rounded to the nearest 100 persons.

4 Figures in these columns may not sum to the total because of data weighting and missing values on the grouping variables.

Notes: Obesity was defined as a BMI of 30 or more. BMI is calculated by dividing weight in kilograms by the square of height in meters. For example, a male or female who is 5'8" is considered obese if he or she weighs 197.5 or more pounds. These rates have not been age-adjusted. Age-adjusted rates are available upon request.

* The Weber-Morgan Health District includes all residents of Morgan and Weber Counties.

*** Insufficient sample size for calculation of population estimates.

Salt Lake City, UT 84114-2101
Phone: (801) 538-6108
E-mail: phdata@utah.gov

Sample Design

The 2003–2004 Utah Health Status Survey represents the fifth such survey: previous surveys were conducted in 1986, 1991, 1996, and 2001. The statistical estimates in this report are based on *2003–2004 Utah Health Status Survey* data.

The sample was a **complex survey sample** designed to be representative of all Utahns. It is best described as a weighted probability sample of 6,056 households disproportionately stratified by 12 local health districts that cover the entire state. The sample was stratified so that survey estimates could be provided for each local health district.

Health District/Small Area	Unweighted Counts	
	Households	Persons
1 Bear River Health District	390	1,316
2 Central Utah Health District	407	1,268
3 Davis County Health District	404	1,344
4 Salt Lake Valley Health District	1,396	4,300
5 Southeastern Utah Health District	396	1,112
6 Southwest Utah Health District	396	1,181
7 Summit County Health District	375	1,105
8 Tooele County Health District	466	1,488
9 TriCounty Health District	454	1,330
10 Utah County Health District	689	2,461
11 Wasatch County Health District	336	1,128
12 Weber-Morgan Health District	347	1,029
State Total	6,056	19,062

The Casady-Lepkowski (1993) calling design was used to generate telephone numbers in each local health district. This method begins by building a base sampling frame consisting of all possible telephone numbers from all working prefixes in Utah. Telephone numbers are arranged sequentially into groups of 100 by selecting all telephone numbers within an area code and prefix, plus the first and second digits of the suffix (e.g., 801-538-10XX represents a group that includes all 100 phone numbers between 801-538-1000 and 801-538-1099). Each group of 100 telephone numbers is classified as either high density (at least one residential listing) or low density (no listed residential phone numbers in the group). All low density groups are removed, and high density groups are retained. Telephone numbers are randomly selected

from the high-density list. This sampling design ensures that both listed and unlisted phone numbers are included in the sample.

The Utah Department of Health Survey Center collected the survey data. The survey interview was conducted with one randomly selected adult (aged 18 or older) in each household. A single stage, non-clustered, equal probability of selection sampling design was used to identify survey respondents. First, interviewers collected household membership information from the household contact person (the person who answered the phone). Next, the computer randomly selected an adult household member from the list of all household members aged 18 or over to complete the survey. Survey questions were then asked of the respondent about either 1) all household members, 2) the survey respondent only, 3) a randomly selected adult or child household member (used only in the injuries section), or 4) the household as a whole. Data were collected on all household members through the respondent. Thus, the survey sample varies, depending on the within-household sample that was used for each set of survey questions. Each within-household sample has known probabilities of selection and has been weighted appropriately so it can be generalized to the Utah population.

Questionnaire Construction

The 2003–2004 Utah Health Status Survey was based on the 2001 and 1996 Utah Health Status Survey questionnaires. For the 2003–2004 questionnaire, some changes were made based on input from the Health Surveys Advisory Committee and the Health Status Survey staff. These changes were made in order to obtain more detailed information and to allow for comparison with large, federal surveys, such as the Current Population Survey (CPS). The entire survey questionnaire may be found online at <http://ibis.health.utah.gov/ophapubs.html>

Survey Data Collection

The Utah Department of Health Survey Center integrated the survey questionnaire into a **computer-assisted telephone interviewing (CATI)** software program. Interviews were conducted by trained interviewers in a supervised and monitored environment at the Utah Department of Health Survey Center.

Computer-assisted telephone interviewing was chosen as the method of data collection for several reasons. First, it yields high response rates, thus resulting in a more representative sample and reducing the amount of bias inherent in mail survey response rates. Second, it helps reduce non-sampling error by standardizing the data collection process. Data entry errors are reduced because interviewers are not allowed to enter non-valid codes. It is also efficient because it allows interviewers to enter responses directly into the database.

Response Rate

The interview process took place over a 22-month period (from March 2003 to December 2004), and resulted in a response rate of 65.9%. If necessary, up to 15 telephone attempts were made to contact a selected household at varying times of the day and week.

Weighting Methods

Post-survey weighting adjustments were made so that the Health Status Survey findings could be more accurately generalized to Utah's population. Two types of post-survey weighting adjustments were made: one that adjusted for random sampling variation and one that adjusted for disproportionate sampling (such as the over-sampling of the smaller local health districts across the state). Although the two types of adjustments are distinct conceptually, they are accomplished in a series of steps that do not distinguish between the two types.

The post-survey weighting variables adjusted for the following factors:

1. The number of **phone lines** in the household.
2. The total **number of adults in the household** (for questions that were asked only of the respondent, but were meant to be generalized to all adults in the household).
3. The proportion of **Hispanic or Latino persons** in each local health district.
4. The population **age and sex** distribution of each local health district.
5. The probabilities of selection for each **local health district**.

Calculation of Survey Estimates

Population count estimates. Once a percentage was calculated for a variable of interest (e.g., the percentage uninsured) using appropriately weighted 2003–2004 survey data, it was applied to a population count to derive the estimate for the number of Utahns affected. In some cases analyses referenced certain age or sex groups, Hispanic or Latino persons or combinations of Utah counties. The population count estimates for these groups were readily available from the Utah Governor’s Office of Planning and Budget (GOPB) for both 2003 and 2004. For this report, population count estimates used were the average of 2003 and 2004 population estimates obtained from the GOPB, and were rounded to the nearest 100 persons.

For other groups where population counts were largely unavailable (e.g., analyses that examined distributions by health insurance status), survey data were used to estimate the population counts. This was achieved by multiplying the appropriate 2003–2004 population total for that group (from averaged 2003 and 2004 GOPB estimates) by a proportion obtained from a frequency distribution or cross tabulation analysis of Utah Health Status Survey data. For instance, to calculate a population count for persons without health insurance, the average population of all Utahns from GOPB estimates for 2003 and 2004 was multiplied by the percentage of persons without health insurance in the 2003–2004 Utah Health Status Survey sample. Thus, any population count estimates not derived directly from existing age, sex, Hispanic/Latino ethnicity, or county population estimates were derived from 2003–2004 Health Status Survey data, and were rounded to the nearest 100 persons.

Missing Values. Another consideration that affected the presentation of the population estimates in table format was the inclusion or exclusion of missing values (“don’t know” and “refused to answer”). Population percentage estimates were calculated after removing the “don’t know” and “refused to answer” responses from the denominator. This, in effect, assumes that persons who gave those answers were distributed identically on the variable of interest to those who gave a valid answer to that variable. For instance, that among those who did not know whether they were insured, we assumed that 90.4% of them were insured and 9.6% were not insured—percentages identical to those found among the sample members who answered the question with a valid response.

Readers may have noticed that the numbers in the last two columns of the reference tables do not always sum to the total as one might expect. This was unavoidable for two reasons:

- 1) If there were missing values on the demographic grouping variable, the sum of the parts is derived from a slightly different sample than the estimate for the overall number.
- 2) The post-survey weighting adjustments cause certain irregularities in the tables.

Limitations and Other Special Considerations

Estimates developed from the sample may differ from the results of a complete census of all households in Utah due to two types of error, sampling and non-sampling error. Each type of

error is present in estimates based on a survey sample. Good survey design and data collection techniques serve to minimize both sources of error.

Sampling error refers to random variation that occurs because only a subset of the entire population is sampled and used to estimate the finding, or parameter, in the entire population. It is often termed “margin of error” in popular use. Sampling error has been expressed in this report as a confidence interval. The 95% confidence interval (calculated as 1.96 times the standard error of a statistic) indicates the range of values within which the statistic would fall 95% of the time if the researcher were to calculate the statistic (e.g., a percentage) from an infinite number of samples of the same size drawn from the same base population. It is typically expressed as the “plus or minus” term, as in the following example:

“The percentage of those polled who said they would vote for George W. Bush was 47%, plus or minus 2%”.

Because the sample was clustered within households, and because local health districts were disproportionately stratified and then weighted to reflect the Utah population, the sample is considered a complex survey sample design. Estimating the sampling error for a complex survey design requires special statistical techniques. SAS software, using “proc surveymeans,” was used to estimate the standard errors of the survey estimates because it employs a statistical routine (Taylor-series expansion) that accounts for the complex survey design.

Figures in Health Status Survey reports include error bars showing this estimated confidence interval around the parameter estimate. In cases where the confidence interval was greater in magnitude than the estimate, the estimate was not given. Additionally, estimates were not computed where the sample denominators were less than $n=50$. Readers should note that we have always presented the confidence interval as though it were symmetric, that is, of equal value both above and below (plus and minus) the estimate. It is often the case, however, that a confidence interval will be asymmetric. This occurs when the distribution is positively or negatively skewed, such as when a percentage is close to 0% or 100%. However, because the software program we use provides only symmetric confidence intervals, we have not provided the asymmetric estimates.

Non-sampling error also exists in survey estimates. Sources of non-sampling error include idiosyncratic interpretation of survey questions by respondents, variations in interviewer technique, household non-response to questions, coding errors, and so forth. No specific efforts were made to quantify the magnitude of non-sampling error. Non-sampling error was minimized by good questionnaire design, use of standardization in interviewer behavior and frequent, on-site, interviewer monitoring and supervision.

Comparability with other surveys is an issue with all surveys. Differences in survey design, survey questions, estimation procedures, the socio-demographic and economic context, and changes in the structure and financing of the health care delivery system may all affect comparison between the 2003–2004 Utah Health Status Survey and other surveys, including those conducted by the U.S. Bureau of the Census, the Behavioral Risk Factor Surveillance System surveys, and previous Utah Health Status Surveys.

Telephone surveys exclude certain population segments from the sampling frame, such as persons in group living quarters (e.g., military barracks, nursing homes) and households without telephones. At the time of the 2000 Decennial Census, only two percent of Utah households were without telephone service. Typically, telephone surveys are biased because tele-

phone households under-represent lower income and certain minority populations. In addition, studies have shown that non-telephone households tend to have lower rates of health care utilization (especially dental care), poorer health habits and health status, and lower rates of health insurance coverage (Thornberry and Massey, 1988).

Despite these overall disparities between telephone and non-telephone households, the Utah Health Status Survey estimates may be considered adequately representative of all Utah households. Certain research (Keeter, 1995) suggests that a similarity exists between data from non-telephone households and telephone households that experienced an interruption in service over the past 12 months. This similarity exists because many, if not most, households currently without telephones did have service in the recent past, and will have service again in the future. Therefore, certain households with telephones (those that had a recent interruption in service) are representative of “non-phone” households, allowing health status survey estimates to be corrected for telephone non-coverage bias. Application of this correction factor changes the results only slightly. This correction has typically not been made, and will be clearly indicated when it is used.

Appendix A:

Age-adjusted Rates

Age-adjusted rates should be used to control for population age differences when comparing rates across health districts. Crude rates should be used when estimating the number of affected persons in the population.

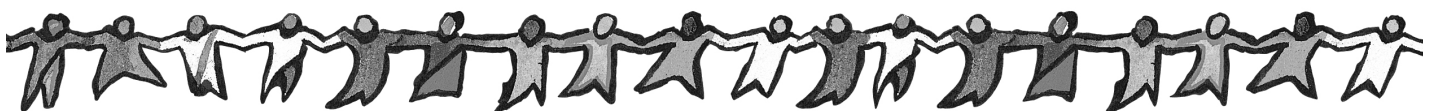

Table 1. General Health Status: Percentage of Persons Who Were in Fair or Poor Health by Local Health District, Crude and Age-adjusted Rates, Utah Residents, 2003-2004

Demographic Subgroup	Utah Population Distribution		Survey Estimates of Persons Who Were in Fair/Poor Health		
	Percentage Distribution	Number of Persons ¹	Percentage of Persons ²	Number of Persons ^{3,4}	Percentage Distribution by Demographic Subgroup
Utah Population, Crude Rates	100.0%	2,441,400	8.8% ± 0.6%	215,800	100.0%
